

EU Approval of Natuphos for Ducks

Natuphos has extended its registration status in the EU by the approval for ducks. The approval of Natuphos for ducks was published by EU-Commission Services. The Regulation 165/2008/EC entered into force on March, 14, 2008. The registration for ducks is under number 4a 1600 in the category zootechnical additive, functional group digestive. The minimum dose rate for the use of Natuphos in ducks is 300 FTU/kg. The following link will lead you to the Official EU Journal "L50", where the text is available in different European languages: <http://eur-lex.europa.eu>

COMMISSION REGULATION (EC)
